

February 4, 1975

TO: Teachers of Agricultural Occupations

SUBJECT: Engineering Open House 1975

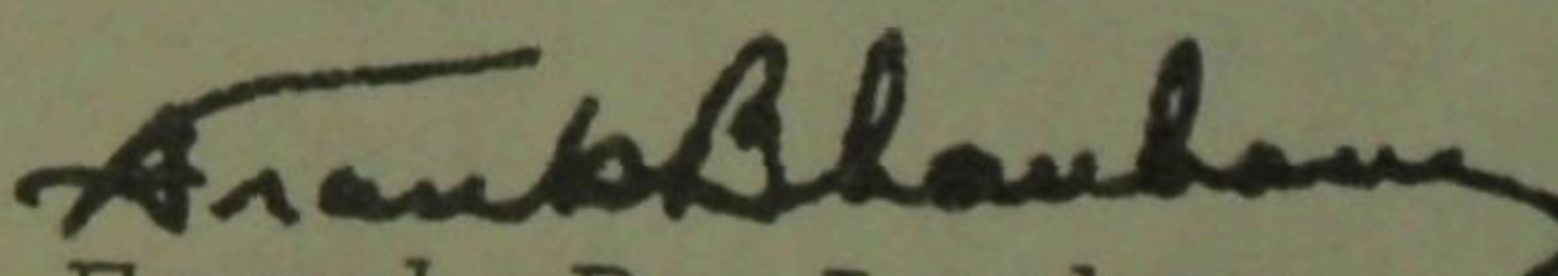

The University of Illinois Engineering Open House will be held on the Urbana-Champaign Campus March 14-15, 1975. This is an opportunity for high school students in your area to become better acquainted with the University -- particularly if they are interested in Agricultural Engineering.

Numerous engineering exhibits following this years theme "2001: An Engineering Odyssey", will be on display from 8:00 a.m. - 8:00 p.m. March 14 and 9:00 a.m. - 3:00 p.m. March 15. Programs and tour guide maps will be available on campus to help you find particular points of interest.

The Agricultural Engineering exhibits will describe some of the ways Agricultural Engineers are working to solve the food and energy demands of our country in the year 2001. Both students and staff members will be available to visit with high school students having an interest in our programs of study.

March 14-15 is also the weekend of the Class A IHSA Basketball Tournament so you may want to bring a carload or busload of students to campus for the double feature program.

Sincerely,

Frank B. Lanham
Head of Department
